DATE OF CONTENT DATE OSTAINED REFERENCES PAGES 2 ENCLOSURES (No. & WYFE) 1 - one sketch on ditto stripping work was being done on the 16 Pe-2s parked at Deutsch Wagram (P 43/5 50) sitrield. However, sections of Pe-2 aircraft which had not been observed before were stored in the repair shops along Strasshoft— Deutsch 'agram road. The other aircraft stationed at the field were not determined, a section of the antenna must with a coneshaped brecing, referred to as Object No. 1. A four-sectional long-wire antenna was about 50 meters enotheast of the instal lation. The antenna was approximately vertical to the direction of the runway and at the two ends of the antenna elead-in branched off downward. The redar station which had been located 300 meters east-mortheast of the road overpass at the Deutsch Wagram railroad station was removed. An installation consisting of a SGI-type set and a Pishnet-type set was observed near Perbadorf (P 49/5 50). An antenne system with a small coine and a disk was located at the notor vehicle parking lot in Deutsch Wagram. 25X1B	TOPICAL	Deutsch Wagram Airfi	eld and Military Post
